

UUS CAPEX Flow — logo directions

Four marks for the CAPEX expenditure approval workflow app. Each shown as an app icon, a horizontal lockup on light and dark, and favicon sizes. Reference any option by its badge (e.g. 1b) in chat.

1a Double Ascent

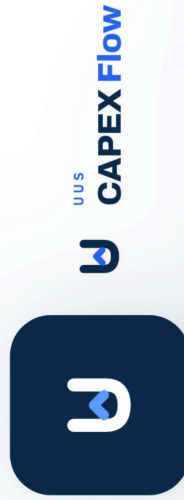

Two rising chevrons — "uptime" motion and steady upward capital flow. Confident, kinetic, reads at any size.

FAVICON

1c U Monogram

A bold "U" for United Uptime with an upward chevron in the counter — ties directly to the parent brand, ownable as an app tile.

1b Approval Flow

Two rising checkmarks — approvals moving through the workflow. The most literal to "CAPEX approval," still clean and geometric.

FAVICON

1d Capital Cycle

A circular flow arrow around a rising chevron — capital moving through the approval cycle. Process-forward and distinctive.
